

TEMPEST Vulnerability Practical Demonstration

Secure Systems & Technologies Ltd (SST) operates a purpose built CESG accredited screened room testing facility in Gloucester (UK). With experience spanning three decades SST (www.sst.ws) is uniquely positioned to support your TEMPEST training needs.

Summary of Course Objectives:

This demonstration provides an illustration of TEMPEST vulnerabilities, signals analysis, detection system sensitivities and practical countermeasures.

Summary of Programme:

- Introduction to detection equipment used and capabilities
- TEMPEST vulnerabilities practical demonstration
- Countermeasures demonstration

Target Audience: Management or Technical personnel, normally as part of a larger training programme on Signals Intelligence, Emission Security and Systems Vulnerability

To be eligible to attend you must be:

- a UK citizen or citizen of a NATO member country
- employed by the UK or a NATO member Government, another UK or NATO member public body, or a UK or NATO member private sector organisation which has a contract, on which you are working, with a UK or NATO member Government department

Attendance Prerequisites:

Minimum Security Clearance: SC or NATO Secret for nationals of NATO countries
