

TEMPEST Product Maintenance Courses

Secure Systems & Technologies Ltd (SST) operates a purpose built CESG accredited screened room testing facility in Gloucester (UK). With experience spanning three decades SST (www.sst.ws) is uniquely positioned to support your TEMPEST training needs.

Summary of Course Objectives:

To provide authorised service personnel with the skills to correctly maintain SST TEMPEST-certified equipment and ensure that the TEMPEST integrity of the equipment is preserved.

To provide an understanding of specific items of TEMPEST equipment manufactured by SST. SST TEMPEST equipment comes with an industry-leading TEMPEST-for-life warranty, subject to any maintenance being carried out by an Authorised Product Maintainer.

Summary of Programme:

- correct disassembly and re-assembly procedures
- the TEMPEST critical features particular to the equipment
- procedures to ensure equipment retains its TEMPEST certified state

Target Audience: Technical personnel who will be involved in the installation and maintenance of TEMPEST products.

To be eligible to attend you must be:

- a UK citizen or citizen of a NATO member country
- employed by the UK or a NATO member Government, another UK or NATO member public body, or a UK or NATO member private sector organisation which has a contract, on which you are working, with a UK or NATO member Government department

Attendance Prerequisites:

Minimum Security Clearance: SC or NATO Secret for nationals of NATO countries, familiarity with IT products to Technician level is recommended as a pre-requisite for attendance on this course.
