

TEMPEST Testers Transmitter Testing Course

Secure Systems & Technologies Ltd (SST) operates a purpose built CESG accredited screened room testing facility in Gloucester (UK). With experience spanning three decades SST (www.sst.ws) is uniquely positioned to support your TEMPEST training needs.

Summary of Course Objectives:

To provide a theoretical and practical understanding of the principles and practices when TEMPEST testing tactical equipments and mobile platforms.

Summary of Programme:

- Documentation requirements
- Testing strategy
- Test equipment familiarisation
- Signal measurement

There are theory and practical examinations at the end of the course.

A Tactical TEMPEST Testing Certificate will be issued on successful completion of this course.

Target Audience: TEMPEST testers

To be eligible to attend you must be:

- a UK citizen or citizen of a NATO member country
- employed by the UK or a NATO member Government, another UK or NATO member public body, or a UK or NATO member private sector organisation which has a contract, on which you are working, with a UK or NATO member Government department
- working in a role which requires you to have access to NATO TEMPEST policy standards

Attendance Prerequisites:

Minimum Security Clearance: SC or NATO Secret for nationals of NATO countries

Successful completion of the SST TEMPEST Tester Basic Onsite Course is recommended as a pre-requisite for attendance on this course
