

Introduction

Based in Gloucester, UK, Secure Systems & Technologies (SST) designs and manufactures TEMPEST, EMC-rated, Rugged, Encryption and Communications Security equipment for Military and government organisations throughout NATO and Europe. This includes NATO agencies, Ministries of Defence, Ministries of Foreign Affairs, Defence Prime Contractors, and other Government agencies.

SST operates from a purpose-built CESG accredited screened room testing facility with UK Government secure site approval. With testing experience spanning three decades combined with expertise in training, off-site mobile platform testing, equipment installation, consultancy and programme management SST is uniquely positioned to support customers on all aspects of TEMPEST training.

SST offers a number of comprehensive courses that can be tailored to meet customer's exact requirements, the range of courses is shown overleaf.

Training can take place at the SST purpose-built design, test and manufacturing facility located just 17km from Cheltenham, or at a customer's location. Course dates and delegate numbers depend on the training and customer requirements.

Please contact the SST team on +44 1452 371999 or email info@sst.ws

Course details

Level 1 (Introduction, awareness)

- T101** TEMPEST Introduction and Awareness Course (1 day)
- T102** The Strategies & Policy Management of TEMPEST Security

Level 2 (Introductions, policies and management)

- T201** TEMPEST Installation Design Course
- T202** TEMPEST Threat Assessment & Determining Facility Protection – Level 1
- T203** TEMPEST Vulnerability Practical Demonstration

Level 3 (Technical)

- T301** TEMPEST Product Maintenance Course
- T302** TEMPEST Installation Design Course
- T303** TEMPEST Threat Assessment & Determining Facility Protection – Level 2
- T304** TEMPEST Threat Assessment & Determining Facility Protection – Level 3 part 1
- T305** Introduction to TEMPEST Engineering & design principles

Level 4 (TEMPEST Testing - Technical)

- T401** TEMPEST Testers Basic Onsite Course (Tactical & Platform Testing SDIP-27 level C)
- T402** TEMPEST Testers Certification Testing (Equipment & Systems SDIP-27 levels A & B)
- T403** TEMPEST Testers Transmitter Testing Course
- T404** TEMPEST Hands-On Product Testing
- T405** TEMPEST Testers FSET Receiver Familiarisation Course
- T406** TEMPEST Threat Assessment & Determining Facility Protection – Level 3 part 2
- T407** TEMPEST Threat Assessment & Determining Facility Protection – Level 4

Level 5 (TEMPEST Testing - Advanced Technical)

- T501** TEMPEST Testers Advanced Course
- T502** TEMPEST Testers Technology and Technique Update Course
